

TO: All RJR Polymers, Inc. Customers  
DATE: January 27, 2014

## RoHS Compliance

RJR Polymers compliant components meet the standards set forth by the RoHS Directive 2011/65/EC. The directive defines RoHS compliant as electrical and electronic assemblies and components that do not contain lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls and polybrominated diphenyl ethers.

As such, all RJR Polymers products comply with the following directives:

### **EU-Directive 2011/65/EC - RoHS:**

Restriction of the use of certain Hazardous Substances in electrical and electronic equipment

### **EU-Decision 2005/618/EC:**

Establishing maximum concentration levels for certain hazardous substances

### **EU-Directive 2003/11/EC:**

Restriction of Pentabromodiphenylether and Octabromodiphenylether

The RoHS compliant testing was completed using a representative sample of solvent based epoxies including PNs 1790, 3396, 6104.

RJR maintains documentation and reviews requirements on a yearly basis. Please let me know if I may be of further assistance.
