## **REACH (SVHC) Compliance Declaration**

We confirm that the formulations of the RJR epoxies and molding compounds do not contain any of the substances of the SVHC candidate list, hence the products do not contain SVHC candidates as intentional ingredients.

None of our raw materials suppliers so far has informed us about the discontinuation of a specific substance because of REACH obligations.

RJR Technologies Inc. hereby declare and guarantee that none of the substances on the ECHA candidate list of Substances of Very High Concern (SVHC) makes up 0.1% or greater of the products manufactured by RJR. Most recently updated on January 17, 2023, the list contains 233 substances. It is available on the ECHA web site ([www.echa.europa.eu/candidate-list-table](http://www.echa.europa.eu/candidate-list-table)).
